

REASONS TO SHOOT AT THE RANGE LANGLEY

As a person who has not had the opportunity to do much shooting, I started doing a little research online regarding indoor shooting ranges. Indoor shooting ranges give the unlicensed shooter the chance to experience gun handling in a safe and structured environment. HOW EXCITING! You may want to go out for a night with your friends and family to shoot for enjoyment or you may be competitive in nature and want to see if shooting is a sport for you. Whatever the reason, The Range Langley has everything you need whether you are a beginner or experienced shooter.

These are my Reasons to Shoot at The Range Langley!

Location, Location, Location

The Range Langley is centrally located at 9938 201 St. in Langley, BC. Whether you are from Vancouver or the Fraser Valley, you can get to The Range with ease via Hwy 1 or Golden Ears Bridge. The facility is easily located to the left of the Golden Ears bridge on-ramp.

The Staff

A company relies on their employees to do the best they can do and excel in customer service to make sure that their customers have the best experience possible. When looking around the internet to see what other people had to say about The Range Langley, the one thing that was always consistent was the views of the staff. I saw many words mentioned to describe the staff such as Excellent, Incredible, Friendly, Knowledgeable, Attentive, Accommodating, and most of all they take safety seriously. Seeing all the good things that other guests have had to say about their experience with the staff makes me confident that I will have the best experience possible. I am a beginner shooter and I feel confident that The Range Langley is a place where I can feel comfortable, be educated, and have a good time all around.

Facility

The Range Langley is advertised as the largest indoor shooting range in Canada, and the only shooting range in BC where you can shoot a .50 BMG. That's right, a .50 BMG! Who wouldn't want to try that!? The facility is a fresh air design that is cold in the winter and hot in the summer. It is away from the elements and it makes for a healthy and safe environment to shoot in.

There are two ranges at the facility where you can shoot:

The Tactical Range (exclusive to members)

- 7 lanes that are 25 meters each
- High speed computer controlled electric target retrieval systems
- Rated for .50 BMG
- Holstering permitted
- Low light and police lighting
- Advance to target
- Competitions & tournaments

Main Range (Open to the public and members)

- 16 lanes that are 30 meters each
- High speed computer controlled electric target retrieval systems
- Rated for .50 BMG

Hours of Operation

Compared to the hours of operation of other local ranges, The Range Langley is open 7 days a week from 10am – 10pm. That is for both public and members. Other local indoor ranges have set times for public and for members. It is nice to have the ease of knowing the hours of operation are the same every day. With that being said, I don't have to check on the internet and try to work my day around when a shooting range is open and when it isn't. I like the simple things in life.

Amenities

The Range Langley has multiple rooms that can be used for classroom or meeting rooms. This would be a great place to have a team building experience. Its secure, safe, educational and exciting! Your team will be talking about it for a very long time. It may even trigger the urge to get into the shooting sport itself. Everything you need is at The Range Langley! (Contact The Range Langley for room rental information.)

Training

If you want or need to get your gun license, The Range Langley rents out their classroom to [SILVERCORE](#) who offer 'PALS', 'RPALS', 'CORE' and many other courses. Also, they have next level multi-day courses exclusive to law-enforcement and military. (*Contact Silvercore for course information and class availability.*)

**Silvercore Advanced Training Systems, commonly referred to as "Silvercore", was founded in 2003 in Delta, British Columbia, Canada. Our company offers a full range of safety and risk mitigation related courses, products and services for private individuals, government agencies and corporate clients across Canada. (taken from the Silvercore website <https://silvercore.ca>)*

Memberships

Having a membership to a range is beneficial in many ways. The Range Langley has 4 different memberships at their facility which includes access to both ranges (*TAC QUAL req.), 7 days a week, members can also enjoy one discounted guest per visit and have access to special events. I have added the packages below to show the levels of memberships and what they include:

Premium Membership - This is the best membership and it includes all the above stated perks plus 3 free gun rentals, 3 free guests per visit and no waiting in line---EVER! The cost for this membership is \$999. It may seem costly, but you have some pretty incredible access and can enjoy your time at the range with a couple of friends at no extra cost.

Standard Membership - The most common membership that The Range Langley provides. You get all the perks mentioned above (*under memberships*) as well as full access to both ranges and special events. The cost for this membership is \$425.

Discount Membership

The discount membership is for seniors over 60, youth under 18 and government officials that carry a firearm in the course of their duty. That includes police, sheriffs, border, conservation, corrections and military. The cost for this membership is \$325.

Family Add-On

The Family Add-On membership is for spouses and children under 18 of anyone who owns an above-mentioned membership. The cost of this membership is \$200.

ATT

Registration paperwork for RCMP firearms compliance. No facility access whatsoever.

What does The Range Langley provide?

When you go to The Range Langley for the first time you will fill out the required paperwork including a liability waiver, plus you will get a safety briefing by an experienced Range Officer that is approximately 8 minutes long.

The Range Langley offers a large selection of firearms for you to choose from and rent. You can choose to rent firearms that you personally pick out or you can choose a package that supplies guns used in your favorite movies such as John Wick, James Bond 007, or Dirty Harry. The packages have two price levels. The first one is for the Rookie and it is the smaller package. The second is called The Gunslinger and this package has double the ammunition than the Rookie package.

In Summary

After looking around the internet and comparing the different indoor ranges, I have found that The Range Langley really offers the best in all that they do. The location is easy to get to, the staff seem very well educated and easy to work with, the facility has everything that I could possibly need, the hours of operation are consistent, and the amenities are perfect for parties, meetings, or for training purposes. The memberships are awesome if you want to shoot more frequently and it saves you money, especially if you bring your own firearms.

The Range Langley will be a perfect place to start shooting and continue shooting for years to come!
